

County of Henrico 457 Deferred Compensation Plan

Features and Highlights

Read these highlights to learn more about your Plan. If there are any discrepancies between this document and the Plan Document, the Plan Document will govern.

About the Governmental 457(b) Plan

A governmental 457(b) deferred compensation plan (457 Plan) is a retirement savings plan that allows eligible employees to supplement any existing retirement and pension benefits by saving and investing before-tax dollars through a voluntary salary contribution. Contributions and any earnings on contributions are tax-deferred until money is withdrawn. Distributions are subject to ordinary income tax.

Eligibility Requirements

To enroll in the Plan, employees must meet the following criteria:

- No age requirement

Eligible employees may enroll immediately.

Please contact your Plan Administrator for information regarding excluded employees.

Enrollment

Once you are eligible to participate in the Plan, you will be automatically enrolled at a:

- Before Tax rate of 1%

Unless you select a different deferral amount or choose to opt out of the Automatic Enrollment during the 30 day wait period prior to your participation date. If your Plan allows, you may change your deferral amount or opt out via the web or by calling the Voice Response System.

Contribution Limits

Before Tax

In 2025, the Before Tax amount is between 1% and 100% of your compensation or \$23,500.00, whichever is less.

Special 457(b) catch-up contributions allow you for 3 years prior to normal retirement age to contribute the lesser of:

- Twice the annual limit, or
- The basic annual limit plus the amount of basic limit not used in prior years if not using age 50 or over catch-up contributions.

Participants turning age 50 or older in 2025, may contribute an additional \$7,500.00. Please note you cannot make age 50 and over catch-up contributions and special 457(b) catch-up contributions in the same year. Additional plan details are available in plan documents.

Participants who are age 60-63 during the calendar year in 2025, may contribute the age 50 limit plus \$3,750.00.

Roth

The Roth option will give you the flexibility to designate all or part of your Governmental 457(b) elective deferrals as Roth contributions.

Roth contributions are made with after-tax dollars, as opposed to the pre-tax dollars you contribute to a traditional Governmental

457(b). In other words, with the Roth option, you've already paid income taxes on money you contribute. With the traditional Governmental 457(b), your contribution is made on a pre-tax basis and you pay income taxes only when you take a distribution.

Investment Options

A wide array of core investment options are available through your Plan. Each option is explained in further detail in your Plan's fund sheets. Once you have enrolled, investment option information is also available through the website at empowermyretirement.com or call the Voice Response System toll free at 1-800-701-8255. The website and the Voice Response System are available to you 24 hours a day, 7 days a week.

In addition to the core investment options, a Self-Directed Brokerage (SDB) account is available. The SDB account allows you to select from numerous investment options for additional fees. The SDB account is intended for knowledgeable investors who acknowledge and understand the risks associated with the investments contained in the SDB account.

Prospectuses, disclosure documents and investment-related options/services information are only available in English. Please have them translated prior to investing.

Transfers and Allocation Changes

You can move all or a portion of your existing balances between investment options (subject to Plan rules) and change how your payroll contributions are invested.

Rollovers¹

Only Plan Administrator approved balances from an eligible governmental 457(b), 401(k), 403(b) or 401(a) plan or an Individual Retirement Account (IRA) may be rolled over to the Plan. Some plans may only allow rollovers from other Governmental 457(b) plans.

¹Governmental 457 funds rolled into another type of plan or account may become subject to the 10% early withdrawal penalty if taken before age 59 1/2.
