▶ Helping you and your family feel confident and protected

Here's how you'll benefit:

A dedicated family advocate

Your family advocate is here to connect you with the right care at the right time with proactive, inclusive, and compassionate support. They can help you:

- Find top-quality doctors, specialists, and care facilities in your health plan and help schedule appointments.
- Stay on top of preventive care and manage chronic conditions.
- Understand your health plan and all the benefits available to you from your employer.
- Quickly get preapprovals for urgent medical needs, like surgery.
- Connect with our in-house clinical experts. These experts work with you and your doctor to create a personal care plan that supports your overall wellness and ongoing health needs.

A connected health record

You and your advocate, doctors, and pharmacist all have access to the most up-to-date information on your health in a single record. These real-time insights can help improve your care and may lower your healthcare costs over time.

Attention to your whole health

Your physical health impacts your overall well-being, yet it's just one piece of the puzzle. Whole health also includes your mental health, along with social and community needs. Your advocate helps you get the care you need in the way that works best for you. They can also connect you with community resources to help with food, child care, transportation, and other social, financial, or mental health concerns.
